

In Trutnov 3.3.2024

Hello, Dresdeners!

I am honored to be the first from our religious community to write a personal letter. My name is Monika and I am the mother of little Josefina. I work as a director of an organization that runs social services. We have an asylum, a dormitory for homeless people and a resocialization program. I also do a bit of psychotherapy. I really like going on trips to nature and reading books.

I don't know if you all know where Trutnov is? Trutnov is a small town with 30,000 inhabitants. Not far from Trutnov are the Giant Mountains with the highest mountain of the Czech Republic, Snežka 1604 m.a.s.l. We have a nice theater UFFO, a unique contemporary art gallery EPO 1 and beautiful nature all around. Trutnov also has a rich history and a legend that someone else will surely write about.

I want to write to you why I like to go to our church. We are a small community where no one is overlooked and at the same time provides enough freedom. Our services are open to children. We have a great background. One of the things I am praying for is that there will be a little more of us in the church. Our church also runs a summer camp for children. I was there for the first time last year and I'm really looking forward to it again.

And how is life in your church? We look forward to your letters.

Best regards

Monika Hillebrandová
